Report On Vermicomposting Awareness Programme

Date: 14.02.2026

The Hareetimaa Eco Club Committee of Swami Dharmabandhu College of Education, Hazaribagh organized an awareness programme on "Vermicomposting" on 14 February 2026 from 1:00 PM to 1:45 PM at the college campus.

The programme was conducted with the objective of promoting eco-friendly practices and encouraging the effective use of biodegradable waste through vermicomposting.

Objectives of the Programme:

1. To create awareness about organic waste management among students and staff.
2. To promote sustainable environmental practices within the college campus.
3. To educate participants about the process and benefits of vermicomposting.
4. To encourage reduction of biodegradable waste through eco-friendly methods.
5. To develop environmental responsibility and green habits among future teachers.

The programme began with an introduction emphasizing the importance of environmental conservation and sustainable living. Dr. Sarika Kumari, Principal of the college, appreciated the efforts of the Hareetimaa Eco Club Committee and highlighted the importance of adopting sustainable practices in daily life. She motivated students and staff to implement vermicomposting both at the institutional and household levels.

Teaching staff, non-teaching staff, and students actively participated in the programme. The session was interactive and informative, and participants showed keen interest in the practical demonstration.

Conclusion:

The Vermicomposting Awareness Programme organized by the Hareetimaa Eco Club Committee was successfully conducted and achieved its intended objectives. The programme effectively enhanced awareness among students and staff about the

importance of organic waste management and sustainable environmental practices. The interactive session and practical demonstration helped participants understand the simple yet impactful process of vermicomposting and its benefits for soil health and waste reduction.

The enthusiastic participation of teaching staff, non-teaching staff, and students reflected their commitment towards environmental conservation. The motivational words of the Principal further strengthened the resolve to adopt eco-friendly habits both within the college campus and at home.

Overall, the programme proved to be a meaningful initiative in promoting green practices and nurturing environmental responsibility among future teachers, contributing towards a cleaner and more sustainable environment.
