Hareetimaa Eco Club

Report on

Plantation Program

Introduction

A Plantation Programme was successfully organized by the Hareetimaa Eco Club Committee at the college campus of Swami Dharmabandhu College of Education. The programme aimed to promote environmental awareness and encourage students and staff to contribute towards creating a greener and healthier environment. The event witnessed enthusiastic participation from Principal Dr. Sarika Kumari, all Assistant Professors, non-teaching staff, and the students of B.Ed. Session 2025–27.

Objectives of the Programme

1. To create awareness about the importance of trees in maintaining ecological balance.
2. To encourage students and staff to actively participate in environmental conservation activities.
3. To enhance the greenery and beautification of the college campus.
4. To develop a sense of social responsibility and environmental stewardship among students.
5. To promote sustainable practices for a clean and healthy environment.

Programme Highlights

The programme began with a brief address by Principal Dr. Sarika Kumari, who emphasized the importance of tree plantation in combating climate change and

preserving natural resources. Faculty members and students jointly planted various saplings across the campus. The Hareetima Eco Club members guided participants about proper planting techniques and the need for regular care and maintenance of the plants.

The active involvement of Assistant Professors and non-teaching staff motivated students to understand the significance of teamwork and collective responsibility towards nature.

Conclusion

The Plantation Programme was a meaningful and successful initiative that strengthened environmental consciousness among all participants. It not only contributed to increasing the green cover of the campus but also inspired students to adopt eco-friendly habits in their daily lives. Such programmes play a vital role in building a sustainable future and fostering a sense of unity, responsibility, and respect for nature.
